Projects:

Project 1: Amazon Website Clone Portfolio

I have designed a clone portfolio that belongs to amazon front page.I have added in it navigation bar,Amazon logo,then added product's styles that are similar to the products that are displayed on Amazon. Link:https://777sushant.github.io/MyPortfolio-Amazon/

Project 2: Calculator

I have made a calculator using HTML,CSS,Java Script .This calculator can show the basic calculations such as addition, divison, multiplications, etc. Then I have used Java-Script to perform calculation operations. Link:https://777sushant.github.io/calculator/

Project 3: Gaming Console Pricing Page

I have made a purchase page similar to page when we click on any apps product and another window opens showing pricing of product , details , pricing, etc. Link:https://777sushant.github.io/ecommerce/
